2012 - YEAR OF THE ECONOMIC DRAGON Led by CHRIS KUEHL

We all know this means fire breathing and villagers fleeing for their lives. Will this year feature Ben Bernanke as the valiant knight vanquishing the twin heads of inflation and recession? Will this be the year the dragon slays the panicked mobs of politicians or will the policy magicians win the day? The dragons of Europe seem to originate in the south while in Latin America they may have been tamed a little. The Chinese dragon may be the most potent of them all. Regardless - this will be a year that underlines the Chinese threat - "may you be born in interesting times".

This meeting will include a focus on South America, the Euro Zone and other regions of the world that are 'hot'! As we get closer to the meeting, Chris will keep us updated on countries, regions and topics that will be added to the meeting agenda as needed.

NO ONE LEADS WORLD UPDATE PROGRAMS BETTER THAN CHRIS KUEHL and ICE is honored to welcome him back! He is co-founder and Managing Director of Armada Corporate Intelligence, a company created in 1999 to provide strategy foundation, competitive intelligence, business analysis and economic forecasting for corporate clients. Chris is the editor and primary writer for several publications: Business Intelligence Briefs, a daily, focused on US economic and business issues; Strategic Intelligence Briefs, focused on global economic and business trends, and Fabrinomics, a bi-weekly industry analysis. As a professor of international finance and economics, he has been on the faculty of universities in the US, Estonia, Hungary, Russia, Singapore, and Taiwan. He holds a Ph.D. in political economics and Masters Degrees in East Asian studies, and in Soviet and East European studies. You'll want to hear his unfiltered business take on the economy and the current status of global economic recovery and projections for the near future. As a corporate intelligence strategist, Chris Kuehl sees the big picture *and* understands the details of how to move forward in global markets and ride out the waves of economic turbulence. "**You may not always like what we have to report, but you will appreciate it" (from the Armada homepage).**
